

U.S. Mid Cap Strategy

Investment Strategy

The Sapphire Star Mid Cap strategy invests in domestically listed mid capitalization stocks and ADRs that exhibit strong, sustainable, and improving fundamentals. The strategy also focuses on investing in those securities with asymmetrically favorable risk/reward profiles, while they are still inefficiently priced by the market relative to their upside potential.

By combining quantitative fundamental analysis with a robust risk/reward assessment the strategy is uniquely calibrated to consistently identify investments capable of providing superior long-term risk-adjusted returns.

Investment Team

Our team of investment professionals bring over two decades of quantitative equity research and portfolio management experience, as well as a rigorous, repeatable and time-tested investment process, which has been developed and refined over many years and multiple business cycles.
