# U.S. Mid Cap Strategy

#### **Investment Strategy**

The Sapphire Star Mid Cap strategy invests in domestically listed mid capitalization stocks and ADRs that exhibit strong, sustainable, and improving fundamentals. The strategy also focuses on investing in those securities with asymmetrically favorable risk/reward profiles, while they are still inefficiently priced by the market relative to their upside potential.

By combining quantitative fundamental analysis with a robust risk/reward assessment the strategy is uniquely calibrated to consistently identify investments capable of providing superior long-term risk-adjusted returns.

- **7. General Disclosure -** The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period.
